Good morning,
I wanted to bring an issue to your attention and if possible, could you include whomever else may need to see this. I went through [REDACTED] phone and there has been moments where himself and other students have been fighting in the bathrooms and the fights being recorded. There are several that I found in his phone of young girls and boys fighting. That is not the type of behavior I want [REDACTED] participating in and I definitely don't approve of him even thinking it's ok to sit around watching or recording fights instead of being in class. I am trying to keep my child on the right path and out of trouble and I will do so by any means necessary. I am very disappointed in his behavior and the things that he has been doing. I just wanted to inform you, I'm not sure how things will be handled but it has been brought to your attention. I hope to see progress or [REDACTED] end. He no longer has his phone as I have taken it from him completely.
